

a single-source
**solution for
all your packing**

Our History

ZUHAL PLASTIC BAGS MANUFACTURING WAS
FOUNDED IN AJMAN U.A.E IN 2006 AS A SPECIALTY
PLASTIC PACKING MANUFACTURER FOR THE
NATIONAL CATERING INDUSTRY. OUR POSITION AS
A COMPETENT MANUFACTURING PARTNER LED TO
EXPANSION OF MANUFACTURING CAPABILITIES TO
CATER TO OTHER REGIONAL INDUSTRIES IN A VERY
SHORT TIME.

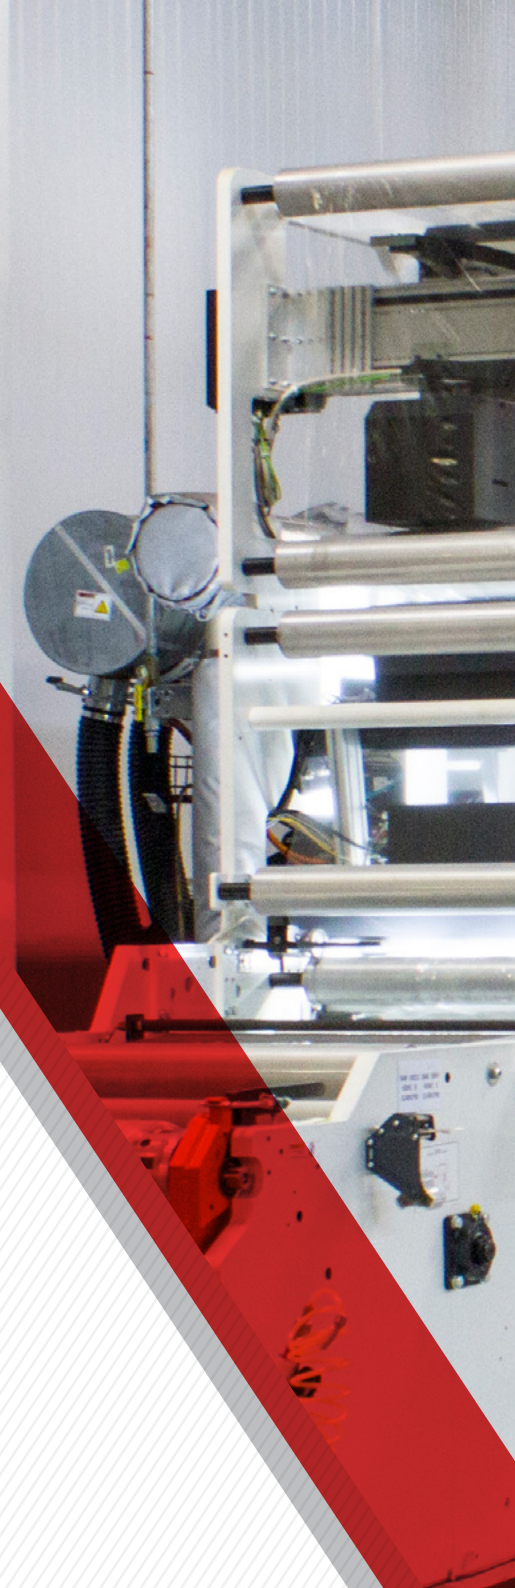

In just 12 years from inception, the company was able to create a feeling of quality and satisfaction in customers mind. This signified the company's position as a regional industrial innovator and was the beginning of the path to expansion. Within a short period of time Zuhail Plastic Bags Manufacturing became a well-established name in the field of plastics in UAE and we are approved by the UAE Ministry of Environment to produce biodegradable plastic bags.

Company Overview

ZUHAL GROUP OF COMPANIES IS A CLIENT-FOCUSED, SERVICE-ORIENTED MANUFACTURING AND TRADING GROUP WITH UNLIMITED LICENSE, LOCATED IN THE CITY OF AJMAN, U.A.E. ZUHAL GROUP HAS COMPLETED SEVERAL PRESTIGIOUS PROJECTS IN THE PRIVATE AS WELL AS GOVERNMENT SECTORS ACROSS THE U.A.E.

Today, we are recognized as a fast growing and dependable firm in the industry for our strength in our plastic manufacturing methods and for our creative, fresh approach to cutting-edge technologies and delivery system. Production

Service and Facilities

LOCATED IN THE INDUSTRIAL HUB OF AJMAN
U.A.E, OUR SPRAWLING MANUFACTURING PLANT
IS BUZZING WITH ACTIVITY.

To deliver on the promise of world-class quality, it is fitted out with top-notch infrastructure and state-of-the-art machinery. We possess highly sophisticated production equipment and testing facilities.

Testing

At our production unit, there is a single-minded approach towards churning out piece after piece of high-precision, practically zero-defect components. To achieve this, we ensure efficiency and time-saving techniques at all levels. A high degree of automation, such as in the extruder machine and bag making machine enables rapid production and thus a great turnaround time that exceeds customer expectations.

Since we have stringent quality parameters in place, our testing equipment is equipped to fulfill all the necessary requirements of assembly and test measurements of our product line. Primary testing is carried out throughout the development phase. In addition, a proper traceability pattern is in place for providing transparent tracking of products.

Our Team

OUR KEY STAFF, MOST OF WHOM HAVE DECADES OF PROFESSIONAL EXPERIENCE, HAVE BEEN CAREFULLY SELECTED TO COMPLEMENT A WELL BALANCED TEAM COMBINING HIGH LEVELS OF PRACTICAL SKILLS AND KNOWLEDGE ACQUIRED IN THE FIELD OF MANAGING, MANUFACTURING AND OPERATION.

We are a career oriented-company whose commitment is to promote deserving professionals within the organization has resulted in successful and significant geographic expansion. Individuals are given the opportunity to take on as much responsibility as they are willing to seek.

Furthermore, we believe that consistency and total commitment is the key to customer satisfaction. Our full-fledged, in-house teams successfully put us in a more dependable position compared to others in the market..

Our Products

Garbage Bags

Our full range of Trash/Garbage disposal bag options enables us to provide disposal solutions that are durable, convenient and profitable. We provide them in all colors, microns, sizes and all packing forms such as bag on rolls. We are one of the Trusted and certified supplier of Bio Hazard bags for medical waste disposal in range colors which is used in most of the government hospitals in UAE. These bags are available in both High density and Low density.

Materials Used:

- High density polyethylene (HDPE)
- Low density polyethylene (LDPE)
- Oxo-Bio-Degradable (OBD)

Clear Polythene Bags

Clear polythene bags are one of the most popular forms of plastic bags that are used for packing. They provide protection against dust and moisture while keeping contents visible. They are available in all sizes and they act as a shield to items kept inside and is used by most of the reputed cargo units in UAE.

Materials Used:

- High density polyethylene (HDPE)
- Oxo-Bio-Degradable (OBD)

Plastic Printed Bags

Most of us want our firms name to be printed on most of the places. How about being it printed on bags in which you supply your goods? Yes, it is possible. We make it possible by printing your logo on the bags which we provide. These bags are mainly used for carrying commodities from supermarkets and hypermarkets. These bags are available in all sizes, microns and are highly durable. These bags are environment friendly as they starts to degrade right after their expiry period. They are available in all colors. These bags fulfill the need of packaging, at the same time provides an advertisement to your firm.

Materials Used:

- High density polyethylene (HDPE)
- Low density polyethylene (LDPE)
- Oxo-Bio-Degradable (OBD)

Vegetable Rolls

Have you noticed the transparent bag on rolls next to vegetables and fruits when you go for shopping in your nearest retail outlet, these are called vegetable rolls. These bags have high tensile strength and are resistant from all sorts of pressure and protects the commodity inside from dust and damage. Vegetable rolls are one of the newest product of our production facility. We have initiated many new innovative ideas to this product and have caught the attention of some of the largest retail giants in GCC.

Materials Used:

- High density polyethylene (HDPE)
- Low density polyethylene (LDPE)
- Oxo-Bio-Degradable (OBD)

Supra Rolls

Supra Rolls are one of the most innovative plastic products we have brought into the UAE market. It is mainly used by charitable organizations to deliver food in poorly developed regions of the world, at the same time it is also used by Caters and hotels to deliver food during a festival. They are basically a roll of plastic sheet on which food can be delivered and are easily disposable soon after the function is over which makes cleaning a lot more easier. It is also available in colors and logo's specified by the customer.

Materials Used:

- High density polyethylene (HDPE)
- Low density polyethylene (LDPE)
- Oxo-Bio-Degradable (OBD)

Laundry Rolls

These plastic rolls are mainly used by laundries to cover up the cleaned and ironed clothes which are out for delivery. They are heat resistant and does not allow any type of moisture or dust to enter. They helps the laundries to deliver the clothes in perfect condition. They are available in all colors, sizes and with the logo specified by the customer.

Materials Used:

- High density polyethylene (HDPE)
- Low density polyethylene (LDPE)
- Oxo-Bio-Degradable (OBD)

Shrink Film / Shrink Wrap

Shrink films are primarily used to bundle numerous items together or neatly wrap items for protection or storage. There are many variations and types of shrink films suited to different applications. They have tensile strength and firmly holds the product kept inside. They are available in all sizes and colors specified by the customer.

Materials Used:

- High density polyethylene (HDPE)
- Low density polyethylene (LDPE)
- Oxo-Bio-Degradable (OBD)
